Deliver immediately following message from President to

Prime Minister Macmillan. Report date time delivery.

QTE Dear Mr. Prime Minister:

In the last day or two it has become evident that the people of West Berlin are badly shaken by the events of the week. In this situation I think a statement of reassurance from you and General de Gaulle and me would be helpful. Consequently, I suggest that at the earliest possible moment we issue a joint declaration along the lines of the attached draft. I would hope that this could be published in our three capitals by Saturday at the latest.

I also hope you will approve the proposal to reinforce our garrisons in Berlin which has been under discussion in the Ambassadors Group here. This seems both urgent and important
